HIGHWOOD
VILLAGE

Berkeley
Designed for life

Welcome to Willowstead, the latest collection of two, three, four and five bedroom homes at Highwood Village.

Located within walking distance of the picturesque town of Horsham and with excellent road and rail links, this is a place where the quality of your home is as important as the place in which it sits. Where spaces for residents have been created alongside places for nature and wildlife.

Highwood Village is a neighbourhood for all ages to enjoy, with a strong sense of community in a modern village setting.

Welcome to HIGHWOOD VILLAGE

Photography of Highwood Village

The homes have been thoughtfully designed with gardens and parking for at least two cars.

The environment is a blend of high quality contemporary and traditional materials, with a beautiful selection of plants creating an attractive and welcoming setting. With its established trees and a sculpture created by local artist John Edgar, the central Landmark Square has been designed to encourage informal relaxation and to provide a backdrop to events and get togethers.

Whether buying your first house, downsizing, or wanting that forever family home, there's somewhere here for you at Highwood Village.

With the bright lights of London only 36 miles away, and services to Victoria, Clapham Junction and London Bridge taking under an hour, everything the metropolis has to offer is in remarkably easy reach from Highwood Village.

Located around 25 miles away, it is the ideal place for a day trip or a reinvigorating long weekend.

ALL IN THE LOCATION

Nestled in the heart of the Sussex countryside, Highwood Village enjoys access to beautiful surroundings, historic homes, ancient woodland, rolling hills and spectacular coastlines.

There is plenty to discover and enjoy, from glorious summer outings to rainy day treasures.

With activities such as cycling, golf, horse riding and walking, there are so many ways to enjoy this varied and beautiful landscape.

This is also the ideal location to take a trip into London to see a West End show, visit a museum, hit the shops or just enjoy a relaxing meal with friends.

With a mix of independent retailers and high street brands, including John Lewis, Horsham is a popular shopping destination and means you never have to travel far to enjoy the brands you love.

The town centre has an abundance of bars and restaurants from favourites such as Wagamama to the Michelin Starred Restaurant Tristan.

There is also a thriving cultural life with regular theatre productions at The Capitol and an Everyman cinema. The newly refurbished Horsham Museum and Art Gallery is the ideal place to learn about local history and culture. Here you will find maps for a host of heritage trails, that will allow you to explore the surrounding area.

**At Berkeley quality
is our priority, from
outstanding materials
and craftsmanship to our
customer service.**

Traditional skills, contemporary elegance and an elevated level of finish ensure that a Berkeley home offers the comfort, high performance and exemplary looks that stand the test of time.

Regardless of which home you choose, Berkeley create the light-filled living spaces that work for your lifestyle, while the attention to detail in every room means everything works together beautifully.

DESIGNED for LIFE

Photography of Highwood Village.

DESIGNED FOR LIFE

At Berkeley, we are committed to creating great places where people love to live, work and relax. Where the homes are light-filled, adaptable and finished to very high standards. Where carefully planned public areas enhance well-being and quality of life for residents and visitors. Where people feel a sense of community.

CUSTOMERS DRIVE ALL OUR DECISIONS

We achieve that by putting our customers at the heart of everything we do. First, we strive to understand what our customers want and need – well-built homes, in a pleasant and safe neighbourhood, with plenty of amenities and good transport connections. Then we apply that understanding to all our planning and design decisions. And for every new development, we challenge ourselves to go further, to improve and innovate, ensuring we satisfy the real needs of our customers in inspiring and sustainable ways.

CHOICE AND DIVERSITY

No two Berkeley customers are the same, so we aim to offer a wide choice of property location, size and type. From central London to major towns and cities; from market towns to rural villages, countryside to the coast – we build in locations our customers love. And whatever home you are looking for, whether that's a city penthouse, a modern studio apartment or traditional family home, you will find the perfect fit for your lifestyle.

QUALITY FIRST TO LAST

Quality is the defining characteristic of Berkeley developments, right down to the very last detail. We choose our locations, style of homes, construction practices, materials and specifications with great care. When you buy a new home from Berkeley you can be safe in the knowledge that it is built to high standards of design and quality, has low environmental impact and that you will receive a professional, efficient and helpful service from us. For extra peace of mind, all new properties come with a 10-year build warranty.

GREEN LIVING

For Berkeley, sustainability isn't simply the latest buzzword. We are committed to creating a better environment within our developments and in the areas that surround them. That's why we build on brownfield sites whenever we can, bringing new life to disused and unloved spaces. We take care to protect the natural environment and enhance biodiversity. All our homes are designed to reduce water and energy consumption, and to enable residents to recycle waste.

COMMITMENT TO THE FUTURE

When we plan a development, we take a long-term view of how the community we create can thrive in years to come. Our aim is to permanently enhance the neighbourhoods in which they are located, through intelligent design, quality landscaping, sympathetic architecture or restoration, and high standards of sustainability. We don't just build for today; we build for the future too.

How we are ensuring sustainability at **Highwood Village**

NATURE AND BIODIVERSITY

The retention of trees and shrubbery along the River Arun banks along with grasslands and wildflower planting provide a wildlife corridor and an ideal setting for habitats to develop and species to thrive. All existing trees have bat and bird boxes installed.

Sustainable Drainage System (SuDS) ponds are incorporated into the development. Not only do these aid effective and sustainable drainage, they also have the added benefit of supporting diverse habitats and associated ecosystems. When designed effectively, SuDS provide shelter, food and breeding opportunities for an array of species. Aquatic plants can thrive in drainage ponds and vegetation such as shrubs and trees can grow around these ponds, meaning more species can create habitats and build new ecosystems on site.

Over 1000 trees will be planted within the Highwood development. Enhancing biodiversity not only helps build resilience against climate change, it also aids in the creation of places which are beneficial to the health and wellbeing of new residents and the wider community.

WASTE AND RECYCLING

We actively encourage all residents to recycle their waste wherever possible. We provide 3 integrated bins within the kitchen units for general waste, recycling and food waste to make it easier to reduce, separate and recycle waste.

SUSTAINABLE TRANSPORT

We try to encourage sustainable methods of transport, and ensure that the development is well connected to the wider community. Secure Cycle storage for apartments is provided and the infrastructure for EV charging points are being installed. A travel plan for the development is in place which provides incentives for cycling and public transport, also encouraging a healthier lifestyle and reducing air pollution.

ENERGY EFFICIENCY

Efficient use of energy and gas helps to lower fuel bills and reduce carbon emissions. Berkeley take a fabric first approach ensuring that homes are well insulated, and our homes are installed with smart meters and energy display devices to assist in reducing energy consumption. All lighting is low energy LED's and kitchen appliances are energy efficient.

RESPONSIBLE SOURCING

Berkeley ensures that materials used in our developments are sourced sustainably including ensuring that the timber used is FSC or PEFC certified, this ensures that it has come from a forest that has been managed sustainably.

WATER EFFICIENCY

Our homes are designed to high water efficiency standards and are fitted with dual flush WCs, and low-flow taps and showerheads which use less water without compromising convenience and comfort. We also suggest simple steps to reduce water consumption, such as not leaving taps running unnecessarily.

COMMUNITY

We are providing community allotments which will be handed over to Horsham District Council, within this area there will be fruit trees planted as part of an orchard.

TRANSFORMING TOMORROW

At Berkeley Group our passion and purpose is to build quality homes, strengthen communities and improve people's lives. We are innovating, pushing boundaries and taking action to ensure we have a long-term, positive impact that is good for our customers, the communities we touch, our business and the world around us.

We transform underused sites into exceptional places and we're also transforming the way we work; embracing technology and raising standards, as we continue to deliver an outstanding customer experience and create high-quality homes that delight our customers.

Our Vision 2030 is our ten year plan which sets out how we will achieve this.

Photography of Highwood Village

TRANSFORMING PLACES

Working with local people and partners we create welcoming and connected neighbourhoods where you can be proud to live.

TRANSFORMING LIFESTYLES

Taking action on climate change and giving you ways to live more sustainably. We're building efficient homes that use less energy over their lifetime, with sustainable travel choices on the doorstep.

TRANSFORMING NATURE

Creating beautiful places with habitats that help nature to thrive, meaning that every site is left with more nature than when we began.

TRANSFORMING FUTURES

Helping people to reach their potential through apprenticeships, training and programmes supported by the Berkeley Foundation.
