Where south-west London comes to life

Sterling Place is a brand-new collection of homes in New Malden, nestled amongst some of south-west London's brightest and most bustling boroughs.

With Wimbledon and its famous All England Lawn Tennis Club nearby, residents have access to local high streets, world-class dining destinations and outdoor activities for all.

Excellent transport links mean Kingston, Richmond, and the Surrey Hills are within easy reach, while residents are just a 24-minute ride away from everything central London has to offer.

Sterling Place gardens

Bradbury Wilkinson & Co factory, New Malden

Sterling Place is steeped in local history, on the grounds of what was once one of Britain's most prosperous commercial hubs.

As the name 'Sterling' suggests, the development used to be the home of former globally renowned printers of banknotes, Bradbury Wilkinson & Co.

Founded in 1856, Bradbury Wilkinson & Co chose New Malden for their relocation in 1917. This move followed the addition of excellent transport links in the 1900s, which started the transformation of this area from an

agricultural to booming business destination. Henry Bradbury began engraving the printing plates for banknotes, bonds and postage stamps, and his company became the printers of choice for clients all over the world. This included money for Singapore and Argentina as well as British currency,

examples of which are on display at the British Museum. The area has continued to evolve as workers have relocated here for easy access to the City, balanced with more than enough

local charm to brighten any weekend. Nowhere is this more evident than in nearby Wimbledon Village, where traditional Victorian-era shop fronts mix with modern cafés and unique boutiques. Wimbledon Books is one of the best independent book shops in London and is a quintessentially British experience, while nearby Traders Antiques has been in business for over 35 years.

The much-loved New Wimbledon Theatre, which opened in 1910, has added to the sense of a vibrant community. Since opening, the theatre has hosted the Russian State Ballet and touring productions of West End shows. Sterling Place residents will also reside close to royalty, with Hampton Court Palace just a short drive away.

BUILDING A RICH HERITAGE

Bradbury Wilkinson & Co were on the money, leaving a legacy in the area.

ACROSS THE GLOBE

From the Isle of Man to the Imperial Bank of Persia, the British printing company produced sets of bank notes for countries and clients all over the world.

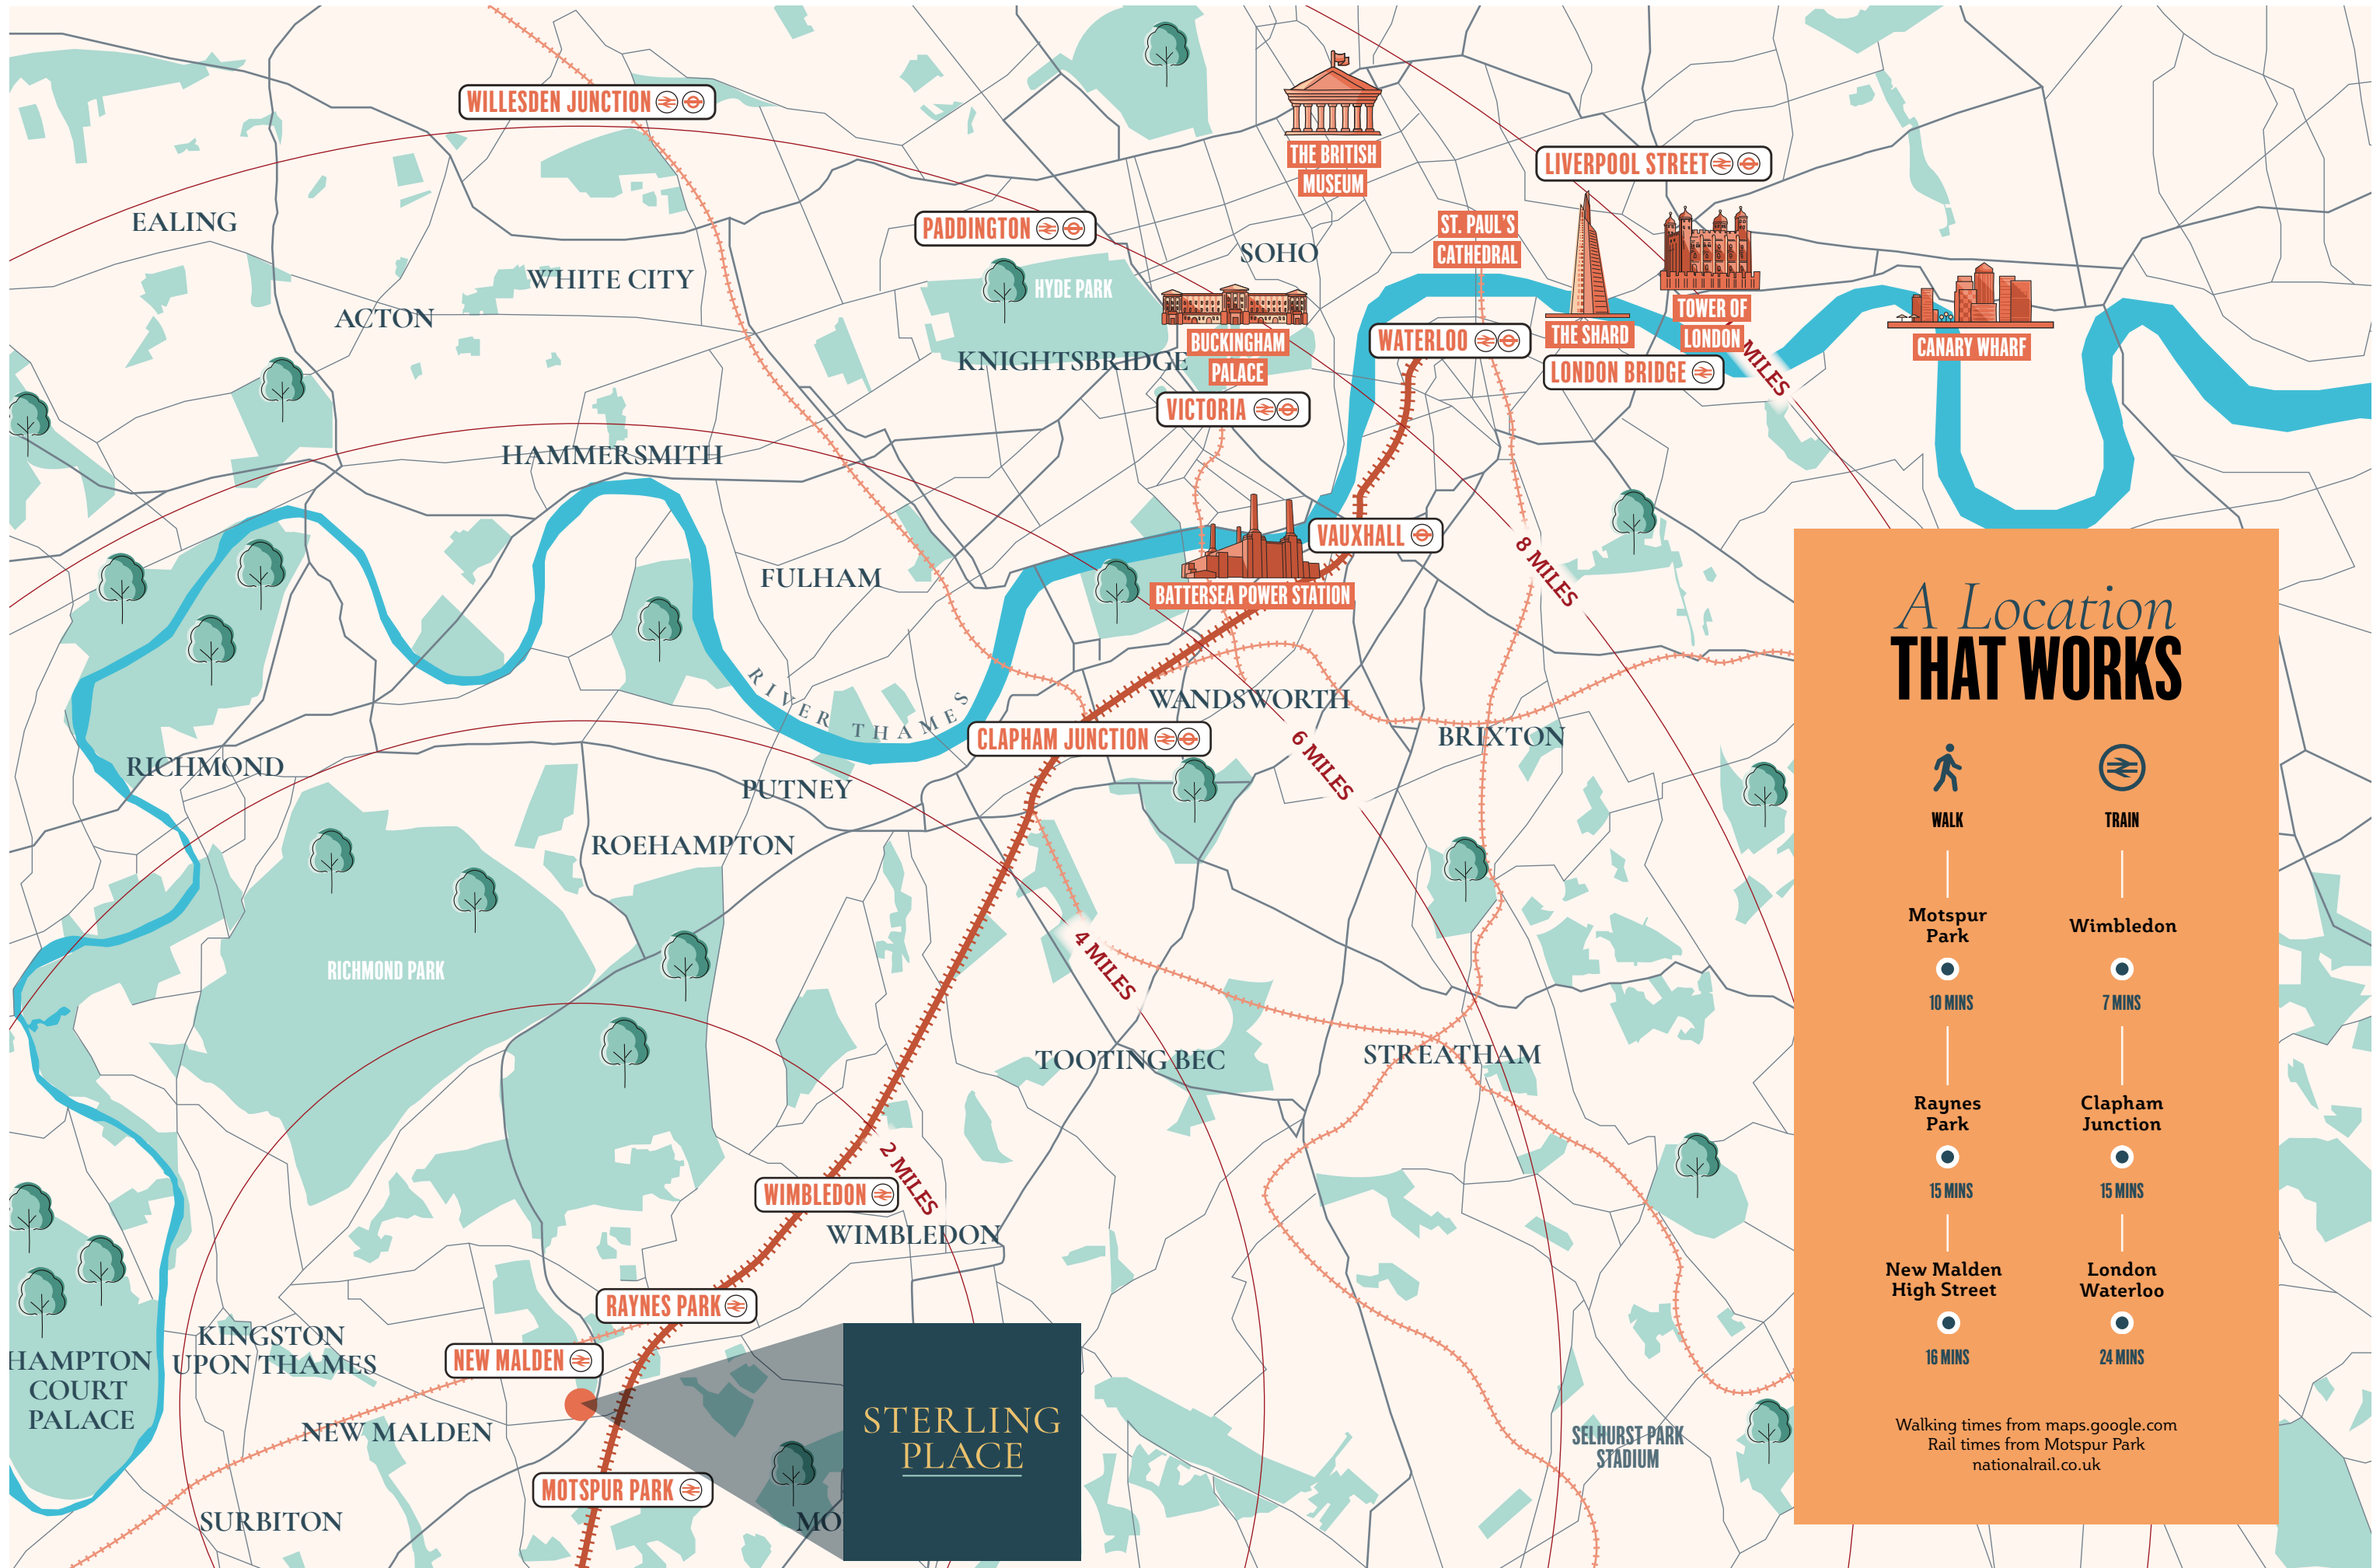

A WINDOW OF OPPORTUNITY

In the 1950s, they introduced a new security feature for banknotes called the "window thread." This revolutionary anti-counterfeit measure is still used today.

THE STAMP OF HISTORY

Highly respected for their printing expertise, they also produced postage stamps for many countries, including Malaysia, Sri Lanka and Nigeria.

NEW HOMES QUALITY CODE

Housebuilders and developers who build new homes will be expected to register with the New Homes Quality Board (NHQB). As long as a housebuilder or developer has followed the correct registration process, including completing the necessary training, introducing a complaints procedure, and following other processes and procedures that are needed to meet the requirements of this New Homes Quality Code (the code), they will become a registered developer.

Registered developers agree to follow the code and the New Homes Ombudsman Service, including accepting the decisions of the New Homes Ombudsman in relation to dealings with customers. If a registered developer does not meet the required standards, or fails to accept and act in line with the decisions of the New Homes Ombudsman, they may have action taken against them, including being removed from the register of registered developers.

The code sets out the requirements that registered developers must meet. The code may be updated from time to time to reflect changes to industry best practice as well as the decisions of the New Homes Ombudsman Service.

All homes built by registered developers must meet building-safety and other regulations. All registered developers should aim to make sure there are no snags or defects in their properties before the keys are handed over to a customer. If there are any snags or defects, these should be put right within the agreed timescales.

What the code covers

For the purposes of this code, 'customer' means a person who is buying or intends to buy a new home which they will live in or give to another person. (If a new home is being bought in joint names, 'the customer' includes all the joint customers.) However, the New Homes Quality Board have also started work to consider other groups of customers and what they should be able to expect from a new home. This includes shared owners and people who are buying a new home to let to other people. Any changes the New Homes Quality Board make to the code to reflect the needs of other groups of customers will be developed through consultation, and they will continually assess and review the effectiveness of the code, and any new laws or regulations that apply. Other areas which are not covered by the code are claims for loss of property value or blight (where a property falls in value or becomes difficult to sell because of major public work in the area), personal injury or claims that are not covered by the scheme rules of the New Homes Ombudsman Service.

Nothing in this code affects any other rights the customer has by law and does not replace any legislation that applies to the new home. Customers do not have to make a complaint to the New Homes Ombudsman Service if they are not satisfied with a matter that is covered by the code. They may decide to take other action, such as through the civil courts or other ombudsman or regulator. We are on the New Homes Quality Code register of registered developers. "We" refers to the Barratt Developments PLC group brands including Barratt London, Barratt Homes and David Wilson Homes. All images used are for illustrative purposes. These and the dimensions given are illustrative for this house type and individual properties may differ. Please check with your Sales Adviser in respect of individual properties. Fixtures, fittings and specification may be subject to change as necessary and without notice and their accuracy or completeness is not guaranteed. Nor are they intended to form part of any contract or a warranty unless specifically incorporated into the contract. Please ask your Sales Adviser for the current specification. Individual features such as windows, brick and other materials' colours may vary, as may drainage, heating and electrical layouts. Specification may be subject to change as necessary and without notice.
